Meeting was 8:30-8:45

Walked out at 9:00

meeting was to discuss (1) making sure we were teaching math (not reviewing it which is teaching which is what we were doing) (sub teacher told Braswell we weren't doing math)

(2) [redacted] issue Psychologist & Social Worker

(*) Cops come at 11:30

removed her from my room on Friday after she said she was going to kill herself (I called the office immediately)

2.

They thought my room with all the severe behaviors was not a good environment for her. (She is very aggressive sexually toward her peers. Her knowledge of sexually acts are not app for her age. She discussed these acts with the rest of my class frequently - which they reported to the office. She frequently called them dick heads and said "fuck you". She stole from her peers and from me with no remorse.)

At the meeting Mr. Braswell wanted to put [redacted] back into my

her academics. He then told

And that even if I didn't

meeting I need help with her and needed love and support the same as the children this year. I broke down and cried.

I said this is enough got up and went crying into the hallway. By the time I got to the end of the hallway I had doubled over with chest pain and the worst migraine I ever experienced. The Psychologist showed up nexted to me and told me to calm down too late was already have a panic attack. I needed my pres. migraine meds. Julie (my friend) came by got a wheel chair and they got my pocket book with my medicine. They wheeled me into the nurses office where they tried to talk me in to calm me down. I kept repeating how all these months Braswell has been bullying me and causing such stress I was sick every night. I had a Xanax in my purse (prescribed) the psy nurse told me

to take it. Higgins came in asked
if I was alright I said no I was
very upset it wasn't right what he
did to me. She told me to go home
and relax and don't think about
anything. Another teacher the sub
from the meeting came in and I
tried to say everything would
work out and I started screaming
at the top of my voice get away
from me. I am going to have a
nervous breakdown. She left.
Then used my I-phone to call Lynn
to pick me up so I could rest.
She kept stressing I should go to my sister
to rest. - To forget about everything.
She said was asking me questions
to said it was bad that years
ago when Dr Wright was Principed
she knew and cared about our
health & family. I told her
she knew I had Depression
panic attacks and takes meds
for it. She asked if I thought

I should take more meds. I said
no, she said she wished I would
calm down and stop shaking.
I told her I would take Ex-
Xanax. I started to calm down and
we talked about how it was when
Dr. Wright was there. I told them
that a long time ago I had a hard
class and told her if she didn't help me
I was going to jump out the window (the
joke was I was on the ground floor) Higgins
(I think ask if I would ever hurt myself
I said no of course not I have a family
I love to take care of and I would never
hurt them like that. I was a brain surgeon
With that my sister and friend Bob came
to pick up my car and take me to her
house. I told her what happened and
she told to relax and go in the tub.
I relaxed - migraine was better but I was
still very upset and embarrassed by the whole
incident. I came out still with a very bad
migraine and my sister said they were not at

903-27112

Tried to lie down for an hour or so but I couldn't sleep. She said maybe you need to eat so she made me a great lunch fried fish, fried potatoes fresh salad we ate. I felt better but tired. I went to see her cats for about 10 min and then the police were at the door (this was about 1:30). They said Roosevelt had called in a 911 that I was going to kill myself. They said the school dropped the ball because I left the school three hours before and if they thought there was a danger they shouldn't have let me leave. Never mind about my chest pains and migraine. They could clearly see I was not a threat to myself or anyone else and said this seemed like someone was trying to harass me. But they were bound by law to take me to get checked out. When we got to the hospital I spoke to the nurse in charge and after speaking to me and listening to my story told me to call my union leader.

this was a clear case of harassment.
They were not happy that people do this.
I was there from around 1:45 - 8:30 pm.
(It was a busy night and I happened
to be last on a very long list.
When I finally got to the Dr. she
said she was sorry I had to go through
all this for nothing. Clearly someone
was using this as a punishment.
She also said to call the union and
file a law suit. People don't have a
right to go around putting people in
the psy emergency for panic attacks/anxiety.
They should have called for the chest pains
when it happened.

I was also told that I was not
allowed to go home until I was
checked out by the Dr. I was

Monday 6/8 Jeff called to say that the admin wanted to meet with me or have a phone conversation to explain what happened. He advised against it. He will email them. I'm to call (mon) lawyer ask him what he thinks and then call Jeff back. (They already know - they sent me the letter with the 913 - they pass judgement) No need to talk again.

Monday 6/9 Alan called me back and said he agreed with Jeff 100% - do not talk with them.

Called Sylvia - got her 1/1. New administrator Dr. Robert Brisbane - write letter (permission to be absent) start date date of return - paid leave.

Called Jeff and let him know what was going on.

6:30pm Jeff called to say he went to the school to talk to Braswell. He wanted to give him a heads up about the grievance he was filing. He told Braswell that I didn't even want to go for the grievance but he pushed it and thought it was a good idea. Braswell said he never said anything to me.

that would cause me to be upset and
that I came into the meeting upset.
He said he would never say "that I didn't
care about I children". Jeff said that
was strange since 15 other people had
the same story as me and his story was
the only different one.

He later said that after I left he called
his supervisor and she told him to call
911. He said he was really worried about
me. He cares about all his teachers.

Jeff said he is very paranoid he thinks
the teachers are out to get him. When he
was leaving two teachers were standing
together talking and Braswell pointed to
them and said to Jeff see they are talking
about me. Jeff said they could have
been talking about the train. He said
"Is psycho".

2:00 p.m. I told lawyer that other
teacher saw me with no restrictions off
the bus a few times. The work had to be
